Our interior packages offer one-stop solution to our clients. All our interior packages include measurements, research, space planning, moodboard proposal, items purchase, delivery and installation. Everything happens within 3 days!

Effective space planning

A small space does not have to feel cramped. With effective interior planning and built-in furnishing that make sense, we can bring out the best features of your apartment that suit your needs.

Maximize return

For an investor, furnishing an investment property can provide additional returns above the standard rent on a property. Rental appraisals show an increase of between \$75-\$125 extra per week for a well-designed fully furnished property.

Affordable interior package

We truly believe that apartment owners and residents have greater needs for effective interior planning services, but may not have big budgets for it. Therefore, we create interior packages that are affordable and flexible to suit your budgets.
